---

For the most part, Windows Update works silently in the background. It downloads updates automatically, installs the ones it can, and saves others to install when you restart Windows.

But sometimes it breaks and stops working. Here's how to fix Windows Update when it gets stuck or frozen.

#### **windows update installer**

windows update installer, windows update installer stuck, windows update installer for windows 7, windows update installer standalone, windows update installer log, windows update installer (8d000109), windows update installer encountered an error (8d000109), windows update installer encountered an error (8d000109), windows update installer error, windows update installer worker
